Try a Sample!  
Order the Sample Pack  
to find the best fabric  
for your project!

## Regular Cotton Inkjet Fabric

Perfect for labels & other quilt projects

- 6 (8½" x 11") sheets/package..... **\$20.95**
- 25 (8½" x 11") sheets/package..... **\$75.95**
- 6 (11" x 17") sheets/package..... **\$38.95**
- 25 (11" x 17") sheets/package..... **\$134.95**
- 6 (13" x 19") sheets/package..... **\$49.95**
- 25 (13" x 19") sheets/package..... **\$174.95**
- 8½" x 120" roll..... **\$33.95**

### 200 thread count, 100% cotton

Print sharp, photo-quality images from your computer onto these soft fabric sheets. Print, let dry, peel off the plastic backing and soak in water for 10 minutes. Perfect for memory quilts, fabric scrapbooks and quilt labels! Washable (gently) and dry cleanable.

## Cotton Lawn Inkjet Fabric

Luxurious quilt-weight fabric

- 6 (8½" x 11") sheets/package..... **\$22.95**
- 25 (8½" x 11") sheets/package..... **\$83.95**

### 240 thread count, 100% cotton lawn

Cotton Lawn's higher thread count produces a silkier feel, and even more beautiful printout because the fabric texture is so fine. The warm white makes complexions glow. You will be amazed at how wonderful your photos look on this fabric. Use for those special wedding, anniversary and other memory heirloom projects that deserve the best.

## Cotton Satin Inkjet Fabric

Polished cotton-like feel

- 6 (8½" x 11") sheets/package..... **\$22.95**
- 25 (8½" x 11") sheets/package..... **\$83.95**

### 283 thread count, 100% cotton satin

The Premium Cotton Satin thread count is 283, so you know it prints beautifully. The name "Satin" describes the weave, making this smooth and luxurious feeling fabric slightly heavier than Cotton Lawn. Cotton Satin is perfect for projects needing a bit of body (think photo-printed tote bags, purses, pillows, pockets on wearables) that don't need hand-quilting.

# EQ Printables

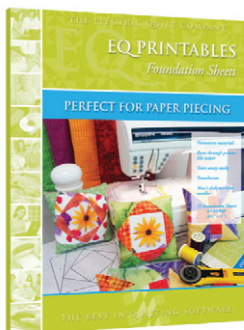

## Foundation Sheets

Perfect for foundation blocks

25 (8½" x 11") sheets/package..... \$9.95

### 75% rayon, 25% polyester

Print right on this soft, nonwoven material. It runs through your inkjet or laser printer like paper. But unlike paper, it's translucent so it's easy to see through. Made of a rayon/polyester blend that won't dull machine needles, it tears away easily. Or leave it on for more stability. Because it washes beautifully, with no shrinking, it's good for clothing projects as well as quilts.

## Quilter's Newsprint

Perfect for foundations and stencils

100 (8½" x 11") sheets/package ..... \$7.95

### Lightweight newsprint paper

Quilter's Newsprint is perfect when precision makes all the difference! Print quilting stencils and paper piecing patterns on any printer or copy machine without smearing. Sew directly over the newsprint and then tear away the paper to reveal clean and precise lines without creating a paper mess or pulling up thread. Or, use a light box to trace your favorite shapes and patterns from books and magazines.

*The Best in the Industry!*
